

The Dragons Breath

The dragon came to task us with his fiery breath and all.

Across our great nation the dragon didn't stall.

He raged his war of terror, as it is now so plain to see,

But we are true blue Ozzies from sea to shining sea.

The fires raged, the terror dire as the dragon waged his war

But we are true blue Ozzie's, which the dragon never saw.

Time has shown that we have grown to be proud of who we are!

We are true blue Ozzies, at home and even afar.

His breath across our nation

He Didn't spare a single inch.

As he raged war from coast to coast,

He held us with just a pinch.

The dragon raged, the fires they spread

His breath across the land

His breath is spreading far and wide as he deals his fiery hand.

From north to south and east to west he wields his endless confrontation

The struggle they had to spare the flames, to spare our land and our nation

To keep our animals safe from harm, that was one big fight

Kanga's, koalas, wallabies and all

He didn't spare one animal, not a single one in sight

So! To all our Aussies through and through

And those who come from afar

To fight this bloody dragons breath, to heal our nations scar

It goes to show as the fires grow that our world is really one big nation

As we stand proudly side by side to face this conflagration

To all of us who saw the Dragon from afar and even here

Just Remember We Are Ozzies, Together, Not Just Ozzies

From Sea to Bloody Shining Sea.
